

Friday 10th October

From Early Adopters to Everyone The Psychology of Community Change

Webinar with Dr. Shane Timmons
Senior Research Officer

Economic & Social Research Institute

This talk will explore how behaviour change happens in society and what it can teach us about climate action. Using recent data on public perceptions Shane will examine why some people are quick to adopt climate-friendly solutions, why others wait, and how communities, policymakers, and communicators can help close the gap.

10am online (Invitation only event)
