That Carlow Municipal District installs a public drinking water fountain in Carlow Town Park, building on the success of the existing public water fountain in the Bus Park. The provision of a refill station in the Town Park would support Carlow County Council's objectives to reduce single-use plastic waste, encourage the use of reusable water bottles, and provide a convenient source of free drinking water for park users.

The installation would also complement the commitment of the Carlow Town Parkrun community to reduce plastic waste by encouraging participants and visitors to refill reusable bottles rather than purchase single-use plastic bottles.
